

To Whom It May Concern:

I am writing in regard to the changes proposed for LPFM. I understand that this change would take priority over current FM translator service. In particular this would impact my family's ability to listen to Air1 on our radio, which greatly disturbs us.

Air1 is a wonderful radio station that plays uplifting songs and also includes encouraging messages for the listeners. I have been a youth pastor in the Pasadena, CA area for 10 years and this radio station has been very important to the teens I work with. For the first time in their lives, they have a radio station that is a positive influence on their lives and that in turn impacts their lives and the community.

If LPFM is to displace stations like Air1 in our community, then this would give not positive listening option to residents (especially teenagers who need this station). The community we live in needs a radio station that brings hope and encouragement. LPFM will remove that from our community.

Service provided by Air1 is in the best interests of the public in that it is positive and builds up our community.

I strongly ask that you do not allow LPFM to take priority over stations such as Air1.

Thank you for your time and consideration!

Sincerely,

Jeff Maljian
